Administrative & educational faculty

A First-class administrative and educational body:
with the sole mission of continuous cooperation
and professional growth.

The educational environment

Attractive school environment: providing an educational learning encouraging environment.

Technology

Online platform Classera - RNS

Shift towards E-Learning

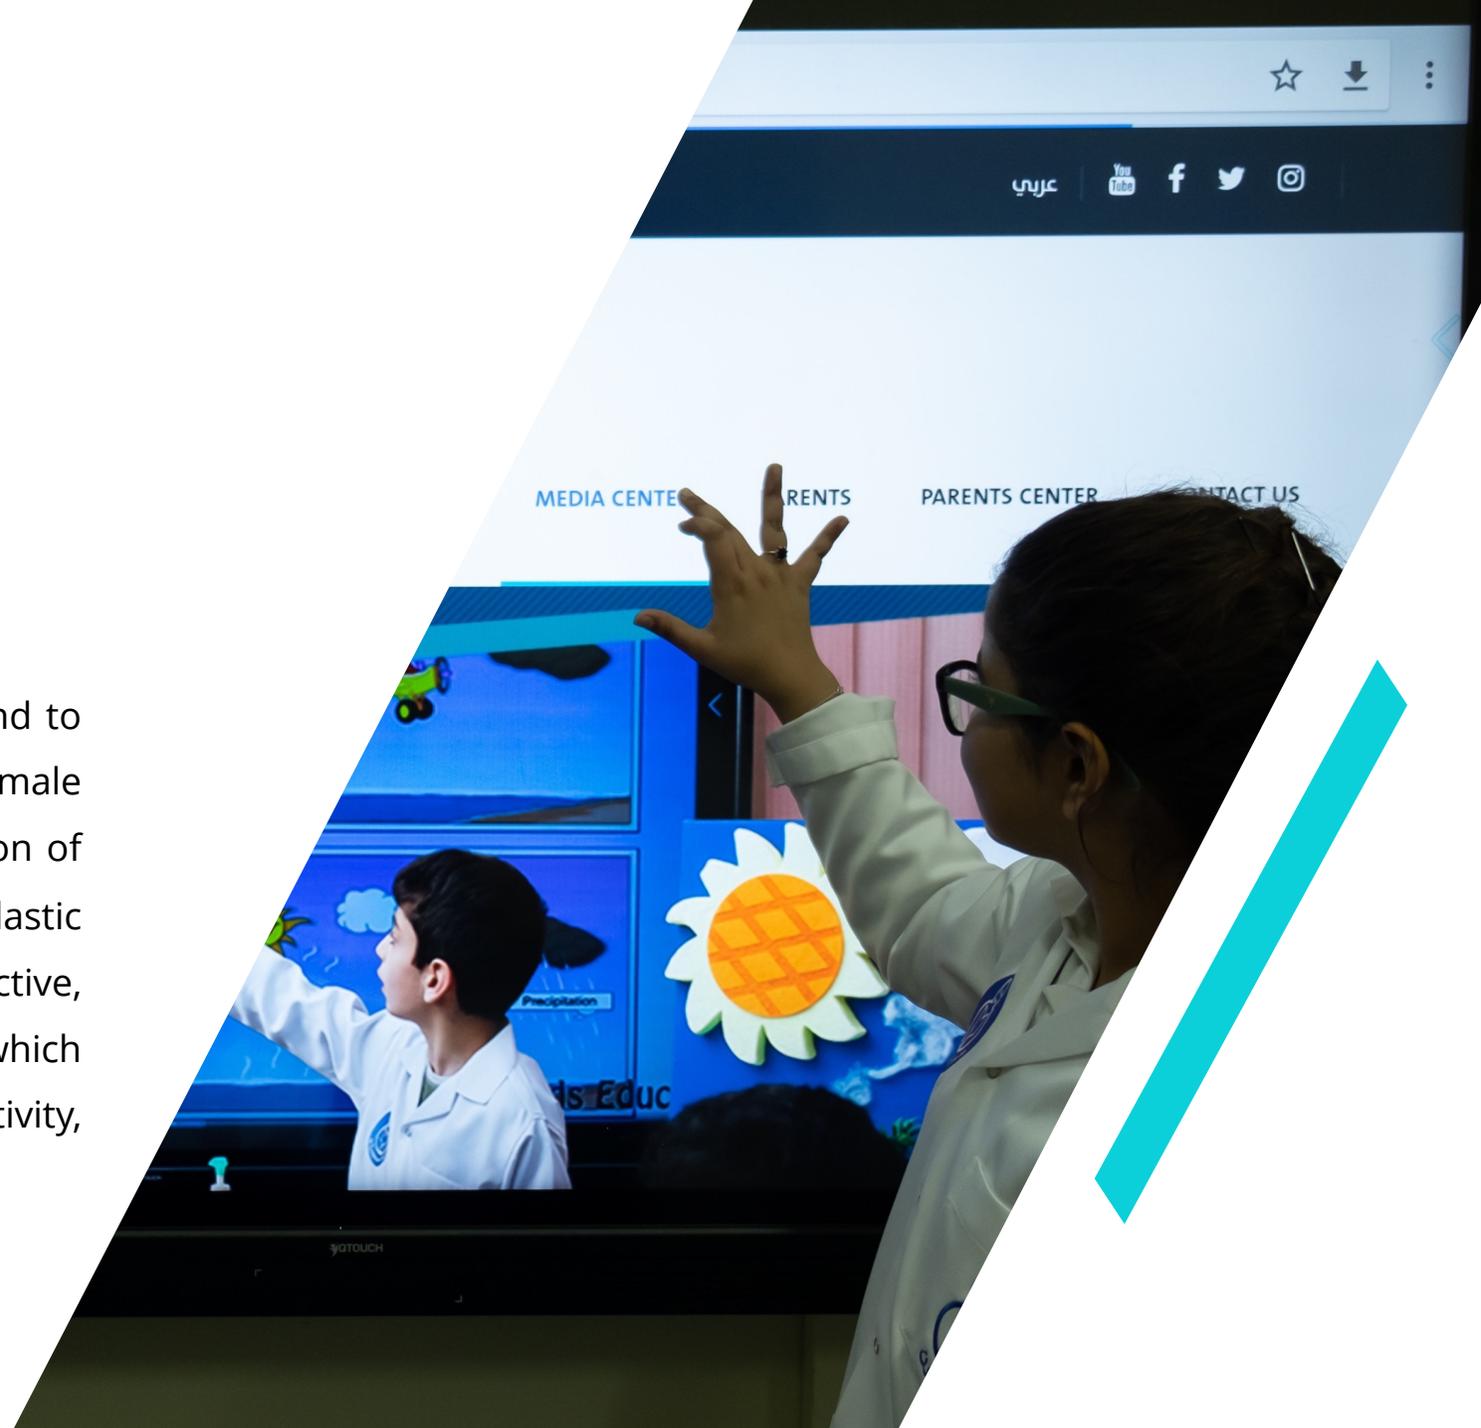

Riyadh Najed schools have implemented the E-Learning system (Classera) which allows the teacher to demonstrate his creativity in different ways, help students acquire scientific material from multi-sources and brings the parent closer to the learning environment.

Technology

New LED Display Interactive Boards

In order to improve the educational process and to facilitate the reception and comprehension of male and female students, the General Administration of Riyadh Najed Schools has set up - in many scholastic stages in girls and boys sections- new, interactive, multi-uses and users LED display boards which support Windows, Android, 4K, Internet connectivity, and the latest technology in display boards.

Technology

ERP system for communication with the educational and administrative faculty

The ERP system for communication with educational and administrative staff has been adopted by the schools. We apply the ERP system to ensure rapid communication between the staff of the boys and girls sections to ensure the rapid completion of correspondence and tasks between all departments and the staff of administrative and educational bodies.

Curriculum

The curriculum of the Riyadh Najd schools (national and international) is centered around the learner, and works to enhance modern teaching methods to increase the quality of education, and to provide various activities to develop the skill of self-learning among our students, with the independence and freedom of thought.

Curriculum

National Program

From kindergarten to High-School.

The standard Ministry of Education curriculum augmented with approved English and computer supporting material that is delivered by international experts.

High-school is based on the ‘Course-systems’, which is an integrated vertical system” that reduces repetition, focuses on skills application, capabilities development and reduction of subjects clustering stress.

RNS Alumni

During the past 25 years, schools have graduated a generation of their sons and daughters in the boys 'and girls' sections in the general and diploma sections, Most of our male and female alumni of Riyadh Najd have been accepted with the priority of admission to leading local universities, such as (King Fahd University of Petroleum and Minerals, King Saud University, King Abdulaziz University) ... and others ... in addition to a number of prestigious universities in the Arab Gulf and Arab countries.

RNS Alumni

On the other hand: A group of school graduates have obtained prestigious university degrees from prestigious American and British universities, such as:

- Oxford University
- Massachusetts Institute of Technology
- California Institute of Technology
- Princeton University
- Columbia University

RNS Alumni

The specializations and achievements of the alumni of Riyadh Najd – were remarkable - between doctors in distinguished specialties - Some of them are rare - not to mention high-ranking officers in various military, aviation, and engineering sectors of all kinds, and some of them hold distinguished positions in the Council of Ministers, the Experts Panel, SABIC, Aramco, banks and others, in addition to those who have undertaken a private business for themselves. Some of them have become successful entrepreneurs, and pioneering TV programs such as “From Zero” and “Liwan” have hosted a sample of them.

RNS Alumni

As a tribute to this elite, schools annually organize a meeting for male and female graduates, as a community link with the graduates and the school also as a friendly encounter with administrative and educational bodies and study companions.
